With a creative outlook and background, I'm passionate about creating meaningful, beautiful, user-friendly web applications and software amongst a team of like-minded individuals. My technical knowledge and skills combined with my experience in collaborative, imaginative environments make me a strong addition to any web development team.

Technical Skills

Front-End: HTML5, CSS3, JavaScript, JQuery, React.js, AJAX, Bootstrap, Material UI, WordPress, Elementor, VS Code

Back-End: MongoDB, MySQL, Node.js, Express.js, Java, Firebase, Heroku, Git, Github

UX/UI: Adobe Photoshop CC, Adobe Illustrator CC, Adobe InDesign CC, Figma

Projects

FRITZMARKETING INC. | FRONT-END DEVELOPER

LINK: [HTTP://FRITZMARKETING.COM/](http://fritzmarketing.com/)

- Developed in coordination with the client including gathering requirements, building solutions, and iterating with necessary changes.
- Designed and implemented a new front-end, modernizing website visuals and functionality.
- HTML, CSS, File Transfer Protocol

NEWSLETTER SIGN-UP COMPONENT | FRONT-END DEVELOPER

LINK: [HTTPS://TINYURL.COM/2RXXC3AH](https://tinyurl.com/2RXXC3AH) | REPO: [HTTPS://TINYURL.COM/2RXXC3AH](https://tinyurl.com/2RXXC3AH)

- A clean, minimal, and responsive newsletter sign-up form, designed to collect user-entered data.
- The form collects and validates text input, displaying active error messages if the field is left empty or while the input is not correctly formatted as an email address.
- Submission of a valid email address is confirmed with the appearance of a success message.
- HTML, CSS, JavaScript

Work Experience

REYNOLDS & REYNOLDS | SENIOR GRAPHIC DESIGNER | JAN 2017 – PRESENT | HOUSTON, TX

GRAPHIC DESIGN PORTFOLIO: [HTTPS://TINYURL.COM/2P8CTA76](https://tinyurl.com/2P8CTA76)

- Utilized HTML, CSS, JS plugins, and Adobe Suite to create email, web, newsletter, and social media communications
- Managed graphical assets to ensure the quality and accuracy in the final product
- Prioritized more than 10 projects at a time while still meeting deadlines in a fast-paced email marketing environment
- Trained design staff on client account setup for an alternate email service product
- Guaranteed products met overall OEM and client brand and web standards
- Worked with multiple marketing analysts to bring client ideas to life based on marketing goals that had been set
- Transitioned hundreds of client accounts to responsive web development in emails and newsletters
- Developed training videos for a diverse set of team disciplines along with OEM product videos for customer product value add
